Gold Line

100% Pure Cellulose

“GOLD” line offers professional kitchen tissue papers as well as industrial ones, made of 90% pure cellulose and recycled papers. Using the highest technology of paper processing, like De-ink, we manufacture a tissue paper that keeps all attributes of paper made of 100% cellulose. Along with softness, whiteness and density the process is also environmentally friendly.

Silver Line

All aspects of our business have a significant impact on the environment thus we take an active interest in environmental performance. So we designed the “SILVER” line ensuring raw material derives from recycled paper up to 30% and paper pulp up to 70% balancing quality, hygiene and low cost.
**Tip:** Our ecological awareness makes us “assistants” to protect our forests.

Tip: Choosing the right appliance will save you from future problems. Consult us to choose the optimum combination of aesthetics and economic outturn.
These dispensers are designed with the users in mind. They combine functionality with hygiene, making it user friendly, highly durable and easy to maintain. An ideal solution for professional use where H.A.C.C.P. is applied.

**Dispenser Dimensions:**
H: 33,8cm, W: 24,4cm, D: 24,8cm

**Paper Dimension:**
H: 25,4cm, D: 22,9cm

**Color:**
Black

**Associated Disposable paper:** 916, 116, 145, 151, 350, 131

**Tip:** For H.A.C.C.P. purposes prefer goods with food suitability certificates. There is a blue color to be traceable in the room.
### Mars dispenser Interfold

**V-Folded Towel Dispenser (FT 311-10)**

**CODE 065**
- Feed sheets of Interfold Hand Towels for the evasion of transmission of microbes. Vandal-proof, break resistant, chemical and flame resistant with a lock system.
- **Dispenser Dimensions:**
  - H: 42.5cm, W: 31.4cm, D: 13.2cm
- **Paper Dimension:**
  - Width: 27.9cm
- **Capacity:** 3 packs of towel
- **Color:** White, Light Blue, Dark Blue

**V-Folded Towel Dispenser (FT 311-10)**

**CODE 076**
- Feed sheets of Interfold Hand Towels for the evasion of transmission of microbes. Vandal-proof, break resistant, chemical and flame resistant with a lock system.
- **Dispenser Dimensions:**
  - H: 42.5cm, W: 31.4cm, D: 13.2cm
- **Paper Dimension:**
  - Width: 27.9cm
- **Capacity:** 3 packs of towel
- **Color:** Black

**Associated with all the ZigZag hand towel**

### CODE 010

Unique transportable kitchen paper device with a special system controlled use for economy in paper consumption. Possibility of hanging on specific wall bracket. Ideal for H.A.C.C.P. system application areas.

- **Dispenser Dimensions:**
  - H: 21cm, W: 26cm
- **Paper Dimension:**
  - H: 20cm, W: 17cm
- **Color:** White

**Associated only with 216 Mars Handy**

### Tip:
The organization of a kitchen may need equal devices with working stalls. The chef has to got his “tools” next to him!!!

Color: White

Associated Disposable paper: 905, 915

Tip: Proper placement of a device saves trouble. Note the height and angle during installation.
Our company produces a special extra durable paper, Mars Airlaid, of the highest standards, designed for sanitary use: food industry, food workshops, catering, hospitals, pharmaceutical industries etc. It is the utmost decontamination system and health hygiene paper.

Initially designed for clinical use, the papermaking process is carried out according to the highest requirements so as to ensure any demand on cleaning, or absorbing.

Unlike the normal papermaking process airlaid paper uses air instead of water to form the structure of paper. It is clean and hygienic, it is soft so it does not scratch the surfaces.

The result of the airlaid procedure ends to a paper soft in feel, with greater tear resistance and tensile strength, particularly when wet and superior in absorbency.

**CODE 500 Airlaid**

The process yields a paper like fabric that is thicker, softer and more absorbent than paper. It also has greater resistance and tensile strength.

A web of short fibres bonded principally by a chemical reaction between the pulp’s natural cellulose and water.

A bulky, porous, soft paper is produced highly absorbent. Certified according to HACCP (Risk Management).
When it comes to food industry and preparation the ways and means of cleanup is not an easy task.

Food industry needs a special paper able to clean deeply, to decontaminate and to be extra absorbent.

Mars Food Antiseptic Service by Sontara is an all-purpose engineered cloth with exceptional absorbency, strength and low-linting properties, well-suited for the many clean-up tasks in all industries.

The FAS is a special cleanup paper whether you are cleaning countertops, machinery or other areas in food processing.

Being food-contact approved it is the ideal solution for food service industry.

**Uses and Applications**
- General cleaning
- Industry & transportation
- Health Care and Institutions
- Appliances’ Service
- Automotive Refinishing
- Aerospace
- Cleanroom
- Electronics
- Printing
- Food Industry
- Food Processing/ Preparation/Service

**Characteristics:**
- No chemicals, silicone, binders or fillers
- Soft, does not scratch
- Great tear resistance and tensile strength
- Non-linting, no dust, no static.
- Strong, even when wet
- Clean, hygienic
